

# Track system serie PRO-Track

PRO-Track is a three-phase or Dali track system fully compatible with adapters available on the market with Euro-track standard. The complete range of innovative accessories such as the "L" and "T" connectors reversible from right connector to left connector offer maximum freedom of installation and to create the desired geometry. The possibility of using the same track for both 3-circuit systems and for DALI dimmable systems with only the change of power connectors, make the system versatile, convenient, practical and affordable.
